

## School Expansion Update

### Edition 12

*10th January 2020*

Happy new year and welcome to the first edition of many updates which will happen over 2020.

As you will have seen, brickwork has commenced around the perimeter of the new hall and kitchen, which has enabled us to begin to appreciate the size of these rooms.

Works on the soak away and drainage for buildings continue to take place on the field, as well as more work on the MUGA. Over the next week, this work will continue. The cabins have been delivered which allow for storage of materials as well as office and welfare cabins for contractors.

The studio had its first coat of paint during our inset day and Mr Kelsey, our caretaker, will apply another coat when he can. The room is now organised as a classroom and after school club staff are incredibly supportive in ensuring the room is reorganised and thoroughly cleaned after their sessions.

As a school, we are beginning to think carefully about how we can make our school grounds work a little harder for the children and provide more opportunities for them during playtimes, when the works are completed. We hope to involve all stakeholders in this work over the coming months and look forward to sharing our ideas with you.

More next week.

Best wishes  
Sam Porter
