

School Expansion Update

Edition 19

6th March 2020

Works to the roof moved away from Holly and Beech classrooms at the end of last week as expected and it was great to see the Studio put to good use during the school day.

Next week, the following will take place;
Continued works to new Hall Roof
Internal works to Hall – walling and boarding
Brickwork - skimming and insulation

Please could I remind parents that they must not park on the school site at any time.
This includes the area at the front of the school as well as the staff temporary car park.
Blue badge holders are very welcome to use one of the two spaces at the front of the school and must display their badge when parked.

More next week.

Best wishes
Sam Porter
