

School Expansion Weekly Update

Edition 2

11th October 2019

As I'm sure many will appreciate, one can never have enough storage! This is always the case in schools. On our school field we have a number of sheds which we will need to relocate and as you can imagine this is quite a job given the contents in some of them. At this moment in time we are looking to relocate them to the side of the kitchen garden so that access is much easier. The expansion does provide us with the perfect opportunity to have a good review and sort out of resources. Where we can, we like to recycle things which we no longer use but are in good condition. Please look out for emails from us which will share information on "freecycling". Most recently a stack of chairs we no longer needed was taken by one of our families, old drawer trays have been used by allotment holders and small tables taken by a local resident. Next week we have a further site visit from Speller Metcalfe so more information will be issued on Friday.

I am delighted to say that three parents have agreed to support the school's travel working party and we will meet soon to discuss our first actions. More information will be issued once we have met and hopefully we can all start to work together to bring the planned actions to life.

A lighter edition this week - more to follow next week.

Best wishes
Sam Porter
