

School Expansion Update

Edition 9

6th December 2019

Ground levelling work continues and the digging out of the foundations for the new hall has commenced. Steel uprights are due to be delivered in the last week of term, however this is weather dependant. The Studio is being prepared as a break out space for classes to use when needed and will be redecorated in the new year.

Road sweepers are routinely travelling up and down Hall Road to ensure that mud and debris is removed from the road surface. This will take place outside of pick up and drop off.

Travel Working Party – please look out for minutes of the meetings which will be displayed on the website under the section Travel Plan from Monday.

More to follow next week.

Best wishes
Sam Porter
