

Leckhampton C of E Primary: Mapping Science Strand Progression

WORKING SCIENTIFICALLY											
Yr	Animals	Materials	Living Things	Forces & Magnets	Light	Plants	Electricity	Earth & Space	Sound	Seasonal Changes	Evolution & Inheritance
1											
2											
3											
4											
5											
6											

Core Principles:

-Teachers ensure that they revisit learning from previous year groups

-Teachers encourage mastery of knowledge and understanding within the context of the 'Working Scientifically' objectives and do not cover the following year's curriculum

-Teachers consider carefully when in the year the strands are covered to align with Year group commitments (e.g. Y1/3/6 productions) seasonal variations in weather and length of topic in relation to term (if needed, topics do not need to fit neatly into 'terms' to allow for greater exploration/ more content input)
